

SpeexSubmode

```
graph BT; SpeexNBMode[SpeexNBMode] -.->|submodes| SpeexSubmode[SpeexSubmode];
```

The diagram illustrates a relationship between two Speex modes. At the top, a white rectangular box with a black border contains the text "SpeexSubmode". At the bottom, a solid black rectangular box contains the text "SpeexNBMode" in white. A vertical purple arrow points from the "SpeexNBMode" box up to the "SpeexSubmode" box. The arrow is dashed for most of its length and becomes solid with a triangular head as it approaches the "SpeexSubmode" box. To the right of the arrow, the word "submodes" is written in black text.
