

**misc.c**

```
graph LR; misc_c[misc.c] --> stdlib_h[stdlib.h]; misc_c --> string_h[string.h]; misc_c --> stdio_h[stdio.h]; misc_c --> misc_h[misc.h]; misc_h --> arch_h[arch.h]; arch_h --> speex_types_h[speex/speex_types.h];
```

The diagram illustrates the dependencies of the **misc.c** file. It is represented by a black box on the left. Four blue arrows originate from its right side, pointing to four white boxes with gray borders: **stdlib.h**, **string.h**, **stdio.h**, and **misc.h**. The **misc.h** box is positioned below the other three. From the right side of **misc.h**, a blue arrow points to the **arch.h** box. Finally, a blue arrow points from the right side of **arch.h** to the **speex/speex\_types.h** box. The **misc.c** box has a thick black border, while the others have thin gray borders.
