

SpeexSubmode

```
graph BT; SpeexSBMode -- submodes --> SpeexSubmode;
```

The diagram illustrates a relationship between two classes. At the top is a white box with a black border containing the text 'SpeexSubmode'. At the bottom is a black box containing the text 'SpeexSBMode' in white. A vertical purple arrow points from the 'SpeexSBMode' box up to the 'SpeexSubmode' box. To the right of the arrow, the word 'submodes' is written in black text.
